## **AzSEC 2022 Keynote Speaker: Paul Veers at NREL**

Paul Veers is the Chief Engineer at the National Wind Technology Center. His keynote address will be on the Grand Challenges in the Science of Wind Energy. This will be followed by a panel of lab speakers working in National Labs.

This year's theme will help our graduate students see their work in a broader context, and to begin understanding the challenges in areas of the U.S. where energy is abundant, but where energy and water scarcity are still pervasive.
