Questions? Email us at
Indige-FEWSS@email.arizona.edu

ABOUT THE SPEAKER:

Andrew Curley (Diné) currently serves as a tenure track assistant professor in the University of Arizona's School of Geography, Development, and Environment and was a former assistant professor in geography at the University of North Carolina. He received his Ph.D. in Development Sociology from Cornell University. Andrew's research focuses on the everyday incorporation of Indigenous nations into colonial economies. Building on ethnographic research, his publications speak to how Indigenous communities understand coal, energy, land, water, infrastructure, and development in an era of energy transition and climate change.
