AzSEC 2021 Keynote Speaker:
President Jonathan Nez, Navajo Nation

President Nez’s keynote address will be followed by a panel focused on the “Energy Transitions on Native Lands” and will include panelists from the Navajo Nation, NREL’s Tribal Energy Program, NAU’s Center for American Indian Economic Development, University of Arizona’s Native American Initiatives, and Arizona Utilities.

This year’s theme will help our graduate students see their work in a broader context, and to begin understanding the challenges faced by Native Nations and areas of the U.S. where energy is abundant but where energy and water scarcity are still pervasive.
